## OPERATION ATALANTA

In late 2008, the Council of the European Union adopted Joint Action 2008/851/CFSP to establish the executive EU military maritime operation and contribute to the deterrence, prevention and repression of acts of piracy and armed robbery off the Somali coast. At that time, it was one of the most important threats to world maritime shipping.

Over time, the mandate of EUNAVFOR has been adapted to reflect the evolving situation in the Area of Operation and the increased presence of the International Community in the Western Indian Ocean. The current mandate has been adjusted to reflect its new responsibilities, maintaining its core tasks.
